

INFORMATION FOR NEW PATIENTS

This form is for informational purposes only. If you would like to be screened to become a patient at Grace Clinic, please call 509-735-2300. We will be happy to help you.

Grace Clinic operates as a Free Clinic and has limited resources. We are staffed mostly by volunteers and do not provide many of the services offered in a typical medical, dental or counseling office. Because of this, we do not treat the following conditions:

- Chronic Pain
- New or Ongoing Cancer Treatment
- Blood Clotting Disorders
- Routine Pap Smears
- Hormonal Disorders
- Other conditions as determined by our medical provider(s)

Additionally, we do not prescribe or dispense controlled substances or narcotics.

We also do not prescribe or dispense the following mental health medications: Ambien, Adderall, Lithium, Ritalin, Xanax, Valium or other medications similar to these.

If the patient is seeking any of the above services or medications, the patient would need to seek care at another facility.

Cold / Flu / COVID-19 Screening:

Grace Clinic is not testing or treating COVID-19. If you are experiencing COVID symptoms, please get tested as soon as possible. You can find a list of testing locations on the Benton Franklin Health District website:

https://www.bfhd.wa.gov/programs_services/investigations_outbreaks/covid-19/testing_sites

After you have recovered from COVID-19 symptoms, please contact the clinic at 509-735-2300 to be screened to become a new patient.

You must meet the following criteria to be eligible to be a Grace Clinic patient:
